**FEDERATION OF SMALL BUSINESSES
IN SCOTLAND**

The Federation of Small Businesses in Scotland is Scotland's largest direct member business organisation, with over 18,000 members.

Campaigning for a social, political and economic environment that will allow small businesses - and the Scottish economy - to grow and prosper, the FSB is now widely recognised as the authoritative voice of the small- and medium-sized sector.

Our branch, regional and national structure ensures that all members are able to input to the organisation's policy process, and our credible, evidence-based policies have successfully influenced the Scottish Parliament and Executive on a wide range of issues since 1999.
