Scottish Power is an international energy company with four strong businesses focused on growth, safety and service.

Scottish Power has a vision to be *'the UK's best integrated energy supplier and a world leader in renewables'*

The CEO for Scottish Power is José Luis del Valle.

With the integration of Scottish Power & Iberdrola now complete Scottish Power is focused on three main areas;

- Transport & Distribution through Energy Networks
- Generation & Supply through Energy Wholesale & Retail
- Canadian gas storage through PPM Canada.

Scottish Power are an integrated energy provider which means they generate, transmit and distribute energy- right from the power station to the plug.
